About us

The Spirit of Innovation

Global Player. COLOP is one of the world's leading manufacturers of modern stamp and marking devices. With more than 500 employees and numerous subsidiaries worldwide, COLOP exports to more than 130 countries with an export rate higher than 98 %. Continuous growth is firmly rooted in COLOP's corporate philosophy, which ensures that the globally increasing demand for high-quality European stamp products can continue to be met in the future. It was for this reason that a major expansion of the production capacity was carried out in the last few years at both the parent plant in Wels, Austria, and at the company's second production site in the Czech Republic. COLOP operates in three business areas: in the standard stamps segment, in the digital marking area as well as in the field of arts and crafts.

Innovation & Design. Since it was founded some 40 years ago, COLOP has been committed to product innovation in the field of state-of-the-art marking devices, particularly stamps. In 2008, for instance, the company introduced 'Green Stamps' into the stamp world. These stamps are made predominantly from recycled or renewable raw materials. Stamps with antibacterial protection are another of the company's significant innovations. With the Printer stamp line, the personalisation of stamps has become a trend. In 2019 COLOP introduced the world's first electronic-digital stamp and marking device for mobile printing of its kind - the COLOP e-mark®.

Marking Solutions. The range of products comprises a large selection of stamp solutions for different applications, including office and pocket stamps, text and date stamps, rectangular and round stamps. COLOP also supplies all the products and systems necessary to ensure a high-quality stamp imprint. The range of services offered by COLOP is rounded off by e-business solutions for the creation of text plates and the sale of stamp products online, as well as software tools for the personalisation of ImageCards™.

Quality & environmental management. COLOP's environmental management system has been ISO 14001 certified for many years, which ensures that all processes have been optimised from an ecological perspective. The company has however also had the conviction to make a voluntary, above-average contribution to environmental issues, going above and beyond the strict EU and national regulations. COLOP has been ISO 9001 certified since 2001. This certification forms the basis for a continual improvement process as part of the company's excellent internal quality management system.

CO₂ neutral. As early as during product development, attention is paid to resource conservation and the use of sustainable materials. The use of recycled plastics is constantly optimised and increased, and energy and raw materials are used as efficiently as possible. The in-house photo-voltaic system produces a considerable part of the electricity required at the Wels site. The significantly reduced but unavoidable CO₂ emissions of products - manufactured at one of the two production sites in Wels, Austria or Borovany, Czech Republic - are offset by investments in climate protection projects (Gold Standard projects). This means that more than 90 % of all products in the COLOP stamp range can be described as climate neutral.

High tech production. A modern and efficient production process is of great importance to COLOP, paying special attention to the energy resources required. Fully automated production and manufacturing of key product lines, ongoing modernisation and upgrading of machinery and constant process optimisations all ensure high quality products and an energy-efficient manufacturing process.

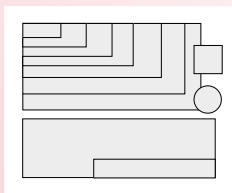

Printer Line

The comprehensive range of self-inking stamps

The Printer Line offers a complete choice of sizes from small and handy up to large and generous - the largest range of formats from round to oval and even a triangle.

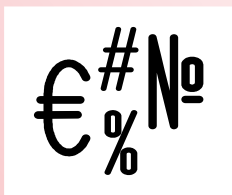

Produced in high quality materials for reliable, regular and comfortable use

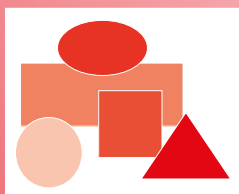

Almost all common sizes are available from very small up to X-large imprints

Offers a wide range of text-, dater- and text-dater-stamps and even stamps equipped with stock text

Bands with individual characters available for various models

Available in all kinds of formats from rectangular to triangular as well as from round to oval and more. For eye-catching and outstanding imprints

Pocket Stamps

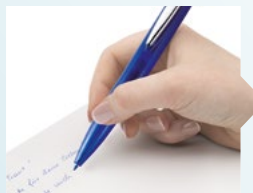

Essential companions

Multifunctional and always with you - on your desk in the office, or "on the road" in a pocket, around the neck or on a keyring.

Pocket Stamp Plus: open - stamp - close with just one hand

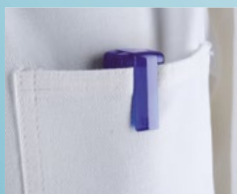

COLOP's pen stamps are attractive writing implements, but with the added function of a practical stamp

Easy and flexible to use - effortless and clean

Modern design - the perfect gift for everyone

Small, smart and portable - with a clip it goes everywhere

Green Line

We take responsibility

The self-inking stamp range predominantly made from sustainable and recycled material. A minimum of between 65 % and 80 % recycled plastic is used. The already significantly reduced but unavoidable CO₂ emissions are compensated by means of investment in climate protection projects (GOLD STANDARD Projects), based on the system boundary “cradle to gate”.

Green Line

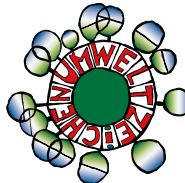

Evaluated according to ISO 14044, verified by C7 Consult an independent institute and based on the system boundary “cradle to gate”

1 Stamp = 2 ImageCard™ designs

The Classic Green Line handles are FSC® certified (Forest Stewardship Council®)

The Austrian Eco-Label is awarded by the Republic of Austria as represented by the Federal Ministry of Environment *

The Green Line range was audited during the ISO 14001 accreditation process

Bands with individual characters available for various models

* Valid for articles with ink pad colours black, red and green. Packaging: carton box.

Spare Pads

Quality parts that make the difference

COLOP spare pads are developed and produced to fit exactly for COLOP self-inking stamps – a perfect combination for perfect imprints.

Clean and simple exchange of spare pad

High quality ink used:

- Document proof
- Non toxic
- Anti dry out formula

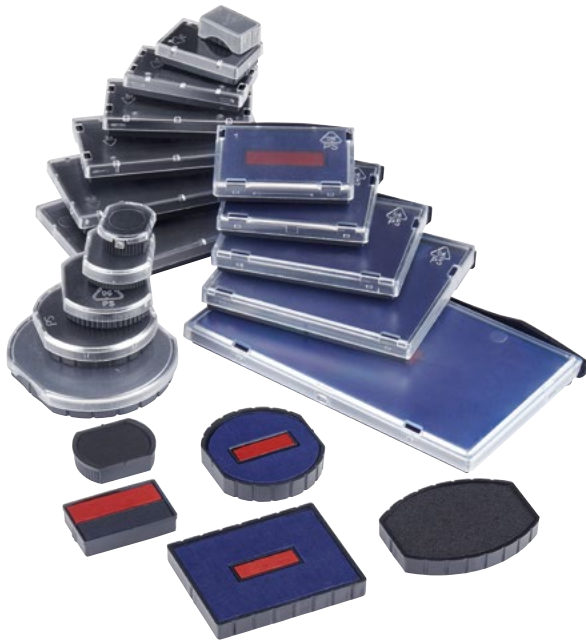

Sharp and clean imprints only with the original COLOP spare pads

Also available: 2-coloured imprints in red and blue

Available in 5 standard colours

COLOP Spare Pads

The inks used in COLOP® pads for self-inking stamps are tested and certified as permanent, document-proof ink according to DIN (Deutsche Industrie Norm) ISO 14145-2.

Do not reink

Felt Pads

Spare pads are also available as felt pads, with the exception of those marked with *. Felt pads are used for special inks like oil or solvent based inks, i.e. COLOP Quick Drying Ink 802.

Ink Pads for Other Models

COLOP offers a wide range of ink pads for stamp devices from other manufacturers. Further details are available upon request.

Band Stamps

Tradition in reliable quality

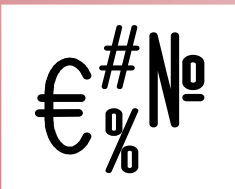

Traditional rubber stamps with deep moulded bands for use with a separate stamp pad. Available as date stamps or numbering stamps.

Economical and functional - available in many different sizes and character measures

A sturdy metal frame makes this band stamp a long-lasting marking device

Special character bands are available for the majority of the models

Ergonomically designed handles for comfortable use

Embossing press

Modern and practical design

COLOP embossing presses leave an impressive imprint - a combination between balanced design and optimised functionality.

Intuitive usability for effortless embossing of paper - also for small hands

The locking mechanism provides absolute reliability as well as easy operation

The handle and base are equipped with soft rubber. This enables comfortable embossing and guarantees stability

COLOP embossing presses can be equipped either with plastic or metal die plates

The construction and the special shape of the chrome plated parts deliver high quality and sturdiness

An attractive and compact hard protecting case is included for protection when being transported
